To whom it may concern,

I am more than pleased to have the opportunity to recommend Kishan Patel who has been part of a software development team with my company since 2<sup>nd</sup> September 2019.

Kishan has been working as full-stack developer during which his areas of responsibility were front-end development, designing templates, SEO, programming back-end codes etc. His professional skill sets include React.js, React native.js, spring boot, parse server etc.

Kishan is bright and hard-working. His enthusiasm for the work comes through in all he does. His positive attitude towards every work makes him a pleasure to work with and is one of the reasons he is well-liked by his co-workers.

I highly recommend Kishan Patel in your institution/organization and I can assure you that he would be an asset to any institution/organization. In case if you need more information, please feel free to contact me.
